

The Logic Systems IS7 cabinet combines a 6.5" Mid/Bass cone with a titanium dome HF. The cabinet is part of the IS series which is aimed specifically at the Bar and Club installation market. The IS Series are available with a range of bracket options to aid installation and can also be ordered in special colours to fit the needs of the designers. Standard colours are black and white. The IS Series aims to bring both an audio and build quality that is not common at this price point. To this end all IS Series cabinets are constructed from birch ply and are rebated, glued and screwed.
