

The Logic Systems Origin series is designed to cater for the demands of the professional working musician. The Logic Systems Origin SB118 is a compact sub/bass enclosure which features a direct radiating 18" bass driver. Sonically the Origin SB118 features the weight expected of an 18" driver, but also retains punch and control. The Origin SB118 is designed to be used as part of an integrated system with the Origin 1296Nd and Origin B215 Mid/top and bass enclosures, forming a compact and versatile live sound FOH system. The Logic Systems DP2140 system controller contains presets for the bi-amp operation of the origin system.
